Pain Workshop: Essential Pain Management Summit

Essential Pain Management was launched in Papua New Guinea in 2010 as an 8-hour face to face program. Since then, it has been delivered in >70 countries across the globe.

At the virtual Prague WCA meeting in September 2021 an online version of EPM was launched and has had > 26,000 site visits. In September 2023 we launched an online Version of EPM in Spanish. This summit will be of interest to current and potential EPM Instructors.

We will provide updates on how best to maximise the learning opportunities of both EPM online and the face-to-face versions. We will start some discussion on how best to measure outcomes from this type of pain education using patient reported outcome measures (PROMS). There will be short presentations from several different regions and interactive discussion will be encouraged.
